Springer-Verlag New York Inc., United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The topic of stigma came to the attention of modern-day behavioral science in 1963 through Erving Goffman's book with the engaging title, *Stigma: Notes on the Management of Spoiled Identity*. Following its publication, scholars in such fields as anthropology, clinical psychology, social psychology, sociology, and history began to study the important role of stigma in human interaction. Beginning in the early 1960s and continuing to the present day, a body of research literature has emerged to extend, elaborate, and qualify Goffman's original ideas. The essays presented in this volume are the outgrowth of these developments and represent an attempt to add impetus to theory and research in this area. Much of the stigma research that has been conducted since 1963 has sought to test one or another of Goffman's notions about the effects of stigma on social interactions and the self. Social and clinical psychologists have tried to experimentally create a number of the effects that Goffman asserted stigmas have on ordinary social interactions, and sociologists have looked for evidence of the same in survey and observational studies of stigmatized people in situations of everyday life. By 1980, a considerable body of empirical evidence had been amassed about social stigmas and the devastating effects they can have on social interactions. Softcover reprint of the original 1st ed. 1986.
