Plural Publishing Inc. Paperback. Book Condition: new. BRAND NEW, Psycholinguistics: Introduction and Applications (2nd New edition), Lise Menn, Nina F. Dronkers, Psycholinguistics: Introduction and Applications, Second Edition is the first textbook in psycholinguistics created for working language professionals and students in speech-language pathology and language education, as well as for students in psychology and linguistics. Concepts from linguistics, neurology, and experimental psychology are kept vivid by illustrations of their uses in the real world, the clinic, and language teaching. Technical terms are clearly explained in context and also in a large reference glossary. The text is now accompanied by a web-based Student Workbook. The Instructor's Manual, also new, is flexibly organized for instructors and students of varying backgrounds. Key Features: \*Written in...
