W. W. Norton & Company. Hardcover. Book Condition: New. Hardcover. 336 pages. A bold, illuminating new take on the love of animals that drove human evolution. Why do humans all over the world take in and nurture other animals This behavior might seem maladaptiveafter all, every mouthful given to another species is one that you cannot eatbut in this heartening new study, acclaimed anthropologist Pat Shipman reveals that our propensity to domesticate and care for other animals is in fact among our species greatest strengths. For the last 2. 6 million years, Shipman explains, humans who coexisted with animals enjoyed definite adaptive and cultural advantages. To illustrate this point, Shipman gives us a tour of the milestones in human civilization- from agriculture to art and even languageand describes how we reached each stage through our unique relationship with other animals. The Animal Connection reaffirms our love of animals as something both innate and distinctly human, revealing that the process of domestication not only changed animals but had a resounding impact on us as well. 25 black-and-white illustrations This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
