Figure 4: Number of TAA Participants Covered under Certifications and Enrolled in Training by Fiscal Year Number of workers 160,000 140,000 120,000 100,000 80,000 60,000 40,000 20,000 0 2004 2005 2006 Fiscal years Workers covered under certifications Workers entering training Source: GAO analysis of Department of Labor petitions data and quarterly activity reports. While many affected workers may seek employment services at one-stop centers, relatively few enroll in training, according to the results of our study of five layoffs. Seventy-percent or more of the workers in our study visited a one-stop center, often receiving one-on-one assistance. In our most recent study, we found that, nationally, occupational training remains the largest training category for TAA participants, with about three-fourths of TAA training participants opting for occupational training. States ranked nursing - including registered nurses, licensed practical nurses, and certified vocational nurses - medical assisting, and truck driving as the occupations in which TAA participants were most frequently trained. Although occupational training remains the largest training category, its relative percentage has decreased, while the percentage of 8 training enrollments for remedial education has increased ( see table 2 ). 8 The percentages are based on enrollments in each training category and not individuals. Some individuals could have enrolled in more than one activity. Page 14 GAO-07-994T This item ships from La Vergne,TN. Paperback.
